Gray Roman Blind Curtains, Roman Blind Curtains Electric, Motorized electric roman blinds

Gray electric system motorized up and down Roman shades for living room, bedroom

Roman blinds are made from fabric that is designed to pleat when raised. The blinds are constructed by mounting slats, which are connected to cords, into the back of a fabric panel. When the blind is lifted, the cords pull the slats together and force the blind to fold into pleats. This type of blind can be fitted either outside or within the recess. We recommend opting for outside, as it allows for increased light and is very easy to fit.
